## Gobos

How to create a variety of moving effects using the Rosco Motion Effects System and which specific Rosco gobos to use to create each effect.

### Elements - Fire

- Rising Flames
- Full Stage Fire
- Realistic Fire
- Full Fire
- Blazing Fire

### Rising Flames

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	56203 Red/Lav/Yellow Featherlight Colorizer	Forward 6rpm		Vary color for intensity.
<b>Gear 2</b>	33605 Honeycomb Image Glass™	Reverse 4rpm		
<b>Static Slot</b>	7176 Flames 2 Steel Gobo		Soft focus on static gobo.	

### Full Stage Fire

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	43806 Flaming Sun Prismatic	Forward 2rpm		
<b>Gear 2</b>				
<b>Static Slot</b>	30011 Tangential	Reverse 3rpm	Focus between	

Breakup  
Animation Disc

gobo and animation  
disc.

## Realistic Fire

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7906 Reflected Water 2 Standard Steel Gobo	0rpm	use two fixtures overlapping as not to see visible direction.	
<b>Gear 2</b>	56102 Warm Free Flow Colorizer	Forward 2rpm		
<b>Static Slot</b>	33607 Irregular Strands Image Glass™		Vary focus for intensity.	

## Full Fire

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	33605 Honeycomb Image Glass™	Forward 1rpm	Soft focus on Image Glass™.	
<b>Gear 2</b>	56102 Warm Free Flow Colorizer	Reverse 1rpm		
<b>Static Slot</b>	7775 Fire/Waves Standard Steel Gobo			

## Blazing Fire

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	43804 Sunset Prismatic	Forward 1rpm		split gel. Lux 21 and 25.
<b>Gear 2</b>	7906 Reflected Water 2 Standard Steel Gobo			
<b>Static Slot</b>	30011 Tangential Breakup Animation Disc	Reverse 5rpm	Soft focus on Prismatic.	

How to create a variety of moving effects using the Rosco Motion Effects System and which specific Rosco gobos to use to create each effect.

### Elements - Smoke

- Smoke for Fire
- Rising Smoke
- Smoke Overcast
- Blown Smoke
- Colorful Smoke

### Smoke for Fire

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	43806 Flaming Sun Prismatic	Forward 5rpm	Turn barrel sideways.	
<b>Gear 2</b>	7906 Reflected Water 2 Standard Steel Gobo			
<b>Static Slot</b>	30011 Tangential Breakup Animation Disc	Reverse 6rpm	Focus on AMU disc.	Vary split gel for intensity.

### Rising Smoke

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	56202 Blue and Green Colorizer	Forward 2rpm	Place fixture close to screen for maximum keystoneing.	
<b>Gear 2</b>	33605 Honeycomb Image Glass™	Reverse 6rpm		
<b>Static Slot</b>	7387 Requiem Standard Steel Gobo		Vary focus on static slot.	

## Smoke Overcast

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	43805 Blue Water Prismatic	Forward 1rpm		
<b>Gear 2</b>	7906 Reflected Water 2 Standard Steel Gobo			
<b>Static Slot</b>	30011 Tangential Breakup Animation Disc	Reverse 5rpm	Run barrel out full.	

## Blown Smoke

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	33605 Honeycomb Image Glass™	Forward vary speed		Split gel with some white light.
<b>Gear 2</b>	33610 Basket Weave Image Glass™	Reverse vary speed		
<b>Static Slot</b>	7278 Alto Stratus Standard Steel Gobo		Soft focus on static slot.	

## Colorful Smoke

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9702 Bubble Wrap Signature Series	Forward vary speed		
<b>Gear 2</b>	56102 Warm Free Flow Colorizer	Reverse vary speed		
<b>Static Slot</b>	7716 Tree Trunks Standard Steel Gobo		Vary focus for intensity.	

How to create a variety of moving effects using the Rosco Motion Effects System and which specific Rosco gobos to use to create each effect.

### Elements - Night Sky

- Star Cluster
- Galaxy
- Shooting Stars
- Cosmos in Motion
- Super Nova

### Star Cluster

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7514 Star Cluster Standard Steel Gobo	Forward 1rpm		Split gel. Lux 61 and clear.
<b>Gear 2</b>	56201 Blue/Lav/Yellow Standard Steel Gobo	Reverse 1rpm		
<b>Static Slot</b>	7514 Star Cluster Standard Steel Gobo		Very soft focus.	

### Galaxy

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9664 Reflected Water 3 Standard Steel Gobo	Forward 1rpm		Vary split gel where needed.
<b>Gear 2</b>	56204 Blue/Lavender Colorizer	Reverse 1rpm		
<b>Static Slot</b>	7896 Nebula Standard Steel Gobo		Very soft focus.	

### Shooting Stars

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7882 Shower Standard Steel Gobo	Forward 1rpm		
<b>Gear 2</b>	33613 Winter Frost Image Glass™	Forward 2rpm		
<b>Static Slot</b>	7884 Snow Standard Steel Gobo		Past sharp on static gobo.	

## Cosmos in Motion

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	56101 Cool Free Flow Colorizer	Forward 1rpm		
<b>Gear 2</b>	33617 Hammered Image Glass™	Reverse 1rpm		
<b>Static Slot</b>	9003 Milkyway Standard Steel Gobo		Very soft focus.	

## Super Nova

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9002 Milkyway 2 Standard Steel Gobo	Forward 2rpm		
<b>Gear 2</b>	9002 Milkyway 2 Standard Steel Gobo	Forward 1rpm		
<b>Static Slot</b>	56101 Cool Free Flow Colorizer		Focus between gobos.	

How to create a variety of moving effects using the Rosco Motion Effects System and which specific Rosco gobos to use to create each effect.

### Miscellaneous Motion

- Animated Sun
- Burst
- Swirls
- Chopy
- Crazy Rotation

### Animated Sun

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7400 Sun Standard Steel Gobo	Forward 5rpm		Split gel. Lux 21 and 14 with white light.
<b>Gear 2</b>	7400 Sun Standard Steel Gobo	Reverse 6rpm		
<b>Static Slot</b>			Focus between gobos.	

### Burst

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7582 Tye Dye Standard Steel Gobo			Vary split gel.
<b>Gear 2</b>	7582 Tye Dye Standard Steel Gobo			
<b>Static Slot</b>			Focus Between gobos.	

### Swirls

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7387 Requiem Standard Steel Gobo	Forward 3rpm		
<b>Gear 2</b>	56102 Warm Free Flow Prismatic	Reverse 3rpm		
<b>Static Slot</b>			Focus between gobos.	

## Chopy

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7917 Laser Dots Standard Steel Gobo	Forward 5rpm		Split gel. Lux 357 and 90.
<b>Gear 2</b>	9902 Radial Circles Standard Steel Gobo	Forward 3rpm		
<b>Static Slot</b>				

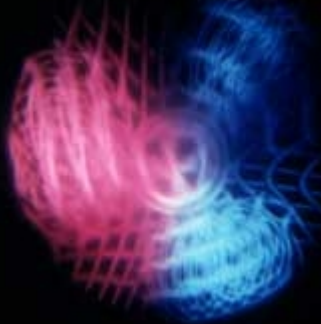

## Crazy Rotation

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9071 Zeds A Leaping Standard Steel Gobo	Forward 8rpm		Vary split gel.
<b>Gear 2</b>	9038 Radial Triangles Standard Steel Gobo	Forward 4rpm		
<b>Static Slot</b>			Sharp focus.	

How to create a variety of moving effects using the Rosco Motion Effects System and which specific Rosco gobos to use to create each effect.

### Moving Light

- Flying Shards
- Random Chop
- Vortex
- Alien Blocks
- Wrected

## Flying Shards

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9073 Pickup Sticks Standard Steel Gobo	Forward 4rpm		Vary split gel for intensity.
<b>Gear 2</b>	9664 Reflected Water 3 Standard Steel Gobo	Reverse 6rpm		
<b>Static Slot</b>	8129 Ripple (small) Standard Steel Gobo		Soft focus on static gobo.	

## Random Chop

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7289 Zig Zagging Standard Steel Gobo	Forward 5rpm		Vary split gel for intensity.
<b>Gear 2</b>	7289 Zig Zagging Standard Steel Gobo	Reverse 5rpm		
<b>Static Slot</b>	55005 Amber/Red Stippled Colorizer		Vary focus for intensity.	

## Vortex

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7761 Spiral Standard Steel Gobo	Forward 6rpm		
<b>Gear 2</b>	43801 Kaleidoscope Prismatic	Forward 6rpm		
<b>Static Slot</b>			Focus between gobos.	

## Alien Blocks

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	9082 Choc-Block Standard Steel Gobo	Forward 6rpm		
<b>Gear 2</b>	7208 Abstract Skyline Standard Steel Gobo	Forward 4rpm		
<b>Static Slot</b>			Vary focus for intensity.	

## Wrected

	Gobo	Speed	Focus	Color
<b>Gear 1</b>	7420 Rectilinear Standard Steel Gobo	Forward 8rpm		Split gel saturated colors.
<b>Gear 2</b>	7421 Wrectilinear Standard Steel Gobo	Reverse 6rpm		
<b>Static Slot</b>			Sharp focus.	

## New Steel Gobos — And A Little Roscolux Color — Create Dynamic Effects

Organic 8 (#74058) and  
Symmetric 8 (#74008)

Symmetric 14 (#74014) and  
Symmetric 18 (#74018)

Organic 3 (#74053) and  
Organic 14 (#74064)

Symmetric 6 (#74006) and  
Symmetric 12 (#74012)

We show four sample effects above. The gobos can be rotated in opposite directions, in the same direction and at varying rates of speed. To view them in action, simply [click on the pictures](#) to watch these videos on Youtube.

Rosco has recently introduced a series of 40 new stainless steel gobos specifically created to work in various combinations in the Double Gobo Rotator. You can create some remarkable effects with these combinations, particularly when you add Roscolux color to the formula.

Many of these effects were simply not available until these new gobos were introduced. The Double Gobo Rotator is an accessory which will fit the ETC Source Four, Altman Shakespeare or Strand SL. You can use two different gobos in the rotating slot, plus an additional gobo in the static slot of the instrument, plus Roscolux color in the color frame. This combination of up to three gobos, plus the movement caused by the Rosco Rotator, plus a single color or a split gel, can be startling and just the right touch in a play, concert or dance performance.
