

Motif Fresco™

He's everything poor sketch™ always wanted to be; meet fresco™, the bigger, much brighter sibling of sketch™ that can do every thing he can, only better.

While sketch™ has got plenty where it counts for those smaller applications, he just can't keep pace with fresco™.

Everyone admires Fresco™, not only for his sheer beauty and sizable output, but also for his natural ability to light up the whole crowd wherever he goes with ease. He's got swagger, and he's equipped with just the right parts to either lighten the mood with a soft, gentle touch... or create a stimulating, breathtaking atmosphere.

And just like sketch™, he's got a thick skin - IP65 to be exact. And he's always in control thanks to his infrared remote (sold separately).

Fresco™ is a tough act to follow with twice the amount of LEDs with custom designed lenses, it's no wonder little sketch tries so hard. So for smaller applications, by all means please let sketch™ exceed your expectations. But for a more intense experience, Fresco™ may be better suited to handle your needs.

Main Features

- Exceptional RGB color mixing from 14x 3-watt TRI-color LEDs
- Fully controllable via IR remote control (sold separately)
- Advanced heat sink design for zero fan noise
- Secure mounting bracket
- Multiple built-in color presets and auto programs
