

The City Theatrical DMX IRIS is a DMX 512 controlled drop-in iris for use with conventional theatrical ellipsoidal spotlights. The DMX IRIS is based on proven and reliable AutoYoke™ technology and represents the latest addition to the CTI range of DMX controlled robotic lighting accessories.

Features:

- Connects via industry standard DMX / Accessory Power 4 Pin XLR cables
- Compatible with Wybron Forerunner™, Chroma Q™, Rainbow™, and Spectra Q™ power supplies
- Models available for ETC Source 4, Strand SL, and Selecon Pacific
- Optional stand-alone power supply with integral 5 pin DMX -to- 4 pin DMX / Accessory Power adapter for use with standard DMX sources
- Each DMX IRIS Power Supply will power 2 DMX IRIS units
- LED status indication
- Units can daisy-chain to scrollers or other DMX Irises
- Closes to 1/4"
- Addressable as any DMX Dimmer number, from 1 to 512, addressing is controlled by a standard array of three 10 digit BCD switches, configured as 100s, 10s, and 1s
- Rugged steel chassis
